ICAHN Professional  
Education Services

An ICAHN Leadership Event

## The Silencing Factor

### Leveraging a Voice with Currency

#### WEBINAR: Wednesday, April 3 from 11:00 a.m.– noon CT

**TARGET AUDIENCE:** Registered nurses, hospital leaders, aspiring leaders

Do you feel like your voice is not heard? Are you afraid to speak up and express your views? Women leaders often feel silenced. Not just a male-female issue, studies show that women equally silence other women. But the most dangerous place to work and live, especially in healthcare, is in a silenced state.

**OBJECTIVES:**

- Identify the phenomenon of feeling silenced in a leadership role.
- Know the distinctions between systems, relationships, and self-silencing.
- Recognize appropriate response and practical applications when feeling silenced.
