

Building Improvement Capability at Your Hospital

Presented in webinar format

Wednesday, July 13 from 1 to 2 pm CST

Health Management Associates (HMA) has successfully tackled a wide variety of healthcare issues working directly with federal, state, and local government agencies, health systems, health plans, providers, foundations, investors, and community organizations, to effect change.

During this webinar, Dr. Michele Bosworth, Principal, HMA, will offer insights into building improvement capability, focusing on the following objectives:

- *How to develop quality improvement programs for medical staff*
- *Engaging medical staff in the hospital's quality program*
- *What is the difference between a clinical improvement program and an audit?*

MICHELE BOSWORTH,
MD, Principal, Health
Management Associates
