

Swing Bed Therapy: Old, New, and Bold

Presented in webinar format

Wednesday, September 7 from 1 to 2 pm

Before the pandemic, swing bed therapy services were adjusting to providing care to an aging and increasingly comorbid patient base. Post pandemic – an influx of PASC (Long COVID) patients are adding to the therapy needs of patients.

This webinar will spend a short time reviewing old – what had been the traditional approach to swing bed services. Then it is time to solidify the new – a movement towards admission and care of clinically complex patients. And finally, a look at how to boldly address what is in store for all levels of therapy services with Long COVID, not only now, but in the future.

KERRY DUNNING
MHA, MSH, CAH-CBS

ABOUT THE SPEAKER

Kerry has over 35 years in the healthcare industry, and over 28 specifically working in post-acute. She worked for national rehabilitation chains in varied roles and in hospital leadership positions. As a consultant, Kerry has worked with swing beds (CAH and PPS), skilled nursing units, freestanding and hospital-owned long term care facilities. She has served as an educator for hospital and LTC associations, hospital associations, and for CAH associations in the areas of corporate compliance, Medicare compliance, medical necessity documentation, therapy services, and coding/billing.
