

FMT Reports and Resources:

What does this report say about us?

Presented in webinar format

Tuesday, June 6 from 1 to 2:30 pm CST

The Medicare Beneficiary Quality Improvement Program provides an opportunity for hospitals to look at data, compare results against other critical access hospitals, and partner with other hospitals to ensure the highest quality care to all patients.

Demonstrating value by providing cost efficient, quality care is the future of healthcare reimbursement. MBQIP takes a proactive approach to ensure CAHs are well-prepared to meet future quality requirements.

The June 6 webinar will focus on interpretation and use of the MBQIP Hospital Data reports, and will feature Susan Runyan, CEO, Runyan Health Care Quality Consulting. Discussion will include:

- Three separate MBQIP Hospital Data Reports:
 - Patient Safety and Inpatient/Outpatient Care Quality Report
 - Care Transitions (EDTC) Quality Report
 - Patient Experience (HCAHPS) Quality Report
- Interpreting the reports to support improvement
- Resources available for best practices on MBQIP measures and quality improvement strategies

SUSAN RUNYAN
CEO, Runyan Health Care
Quality Consulting
