

Nursing and Rehabilitation Webinar

Wednesday, August 9th, 2023
10 am-11 am

Improving your Safe Patient Handling and Mobility Program

1. Understanding current best practices in SPHM programs
2. Discuss the use of the Bedside Mobility Assessment Tool 2.0
3. Learn how to incorporate the tool into your current workflow

Registration Link

Teresa Boynton, MS, OTR, CSPHP, is an independent clinical consultant. She previously worked for Hill-Rom and Banner Health for over 26 years assisting healthcare facilities in building and sustaining safe patient handling and mobility programs with a focus on effective education and training, protecting patients by mobilizing early and often, and improving efficiency and patient outcomes while increasing caregiver safety using a standardized assessment linked to SPHM interventions.
